

## ABOUT US

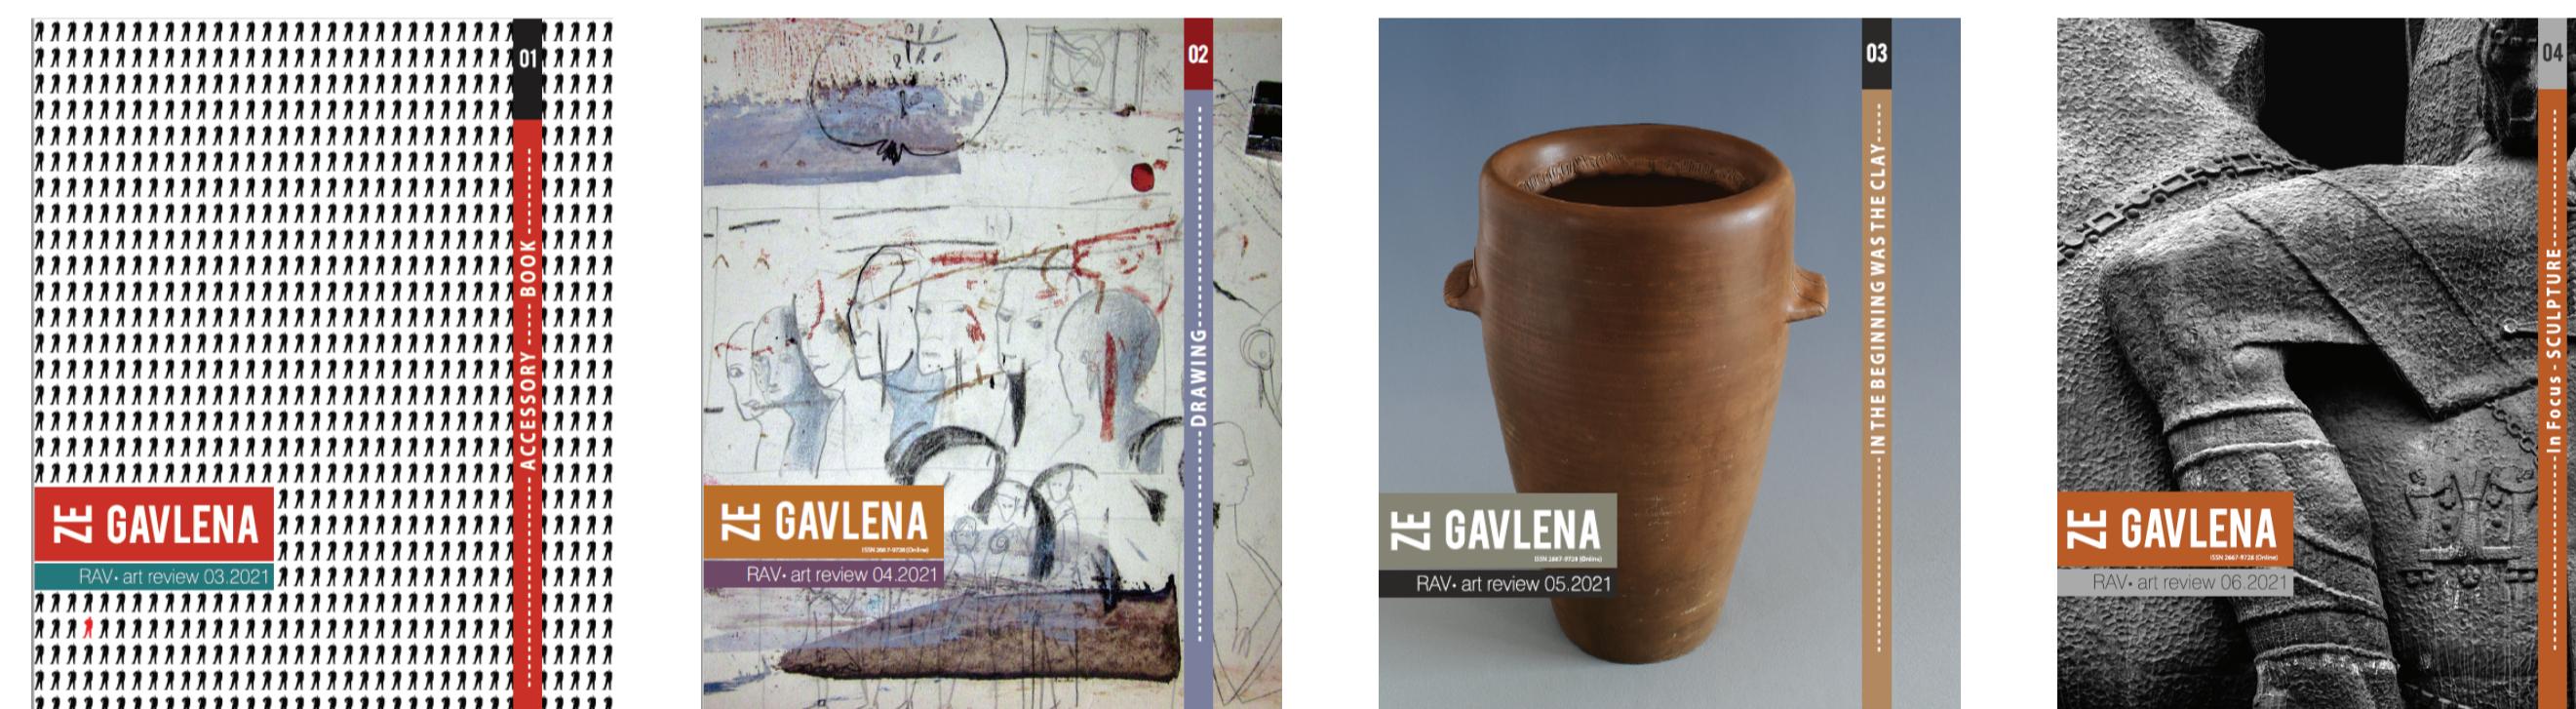

Reach Art Visual &ndash; visual art consulting company. We create conceptual and creative content oriented on thematic essence, the foundation of which is to define art identity. Art Identity is an innovative concept of Reach Art Visual.</p> <p>What is the purpose of art in real life and what personal characteristic can it be for us? We discover your art identity with you. With individual or corporate services, together we explore the infinite possibilities of artistic communication, in accordance with your needs and requirements.</p> <p>&nbsp;</p> <p>&nbsp;</p> <p>&nbsp;</p>

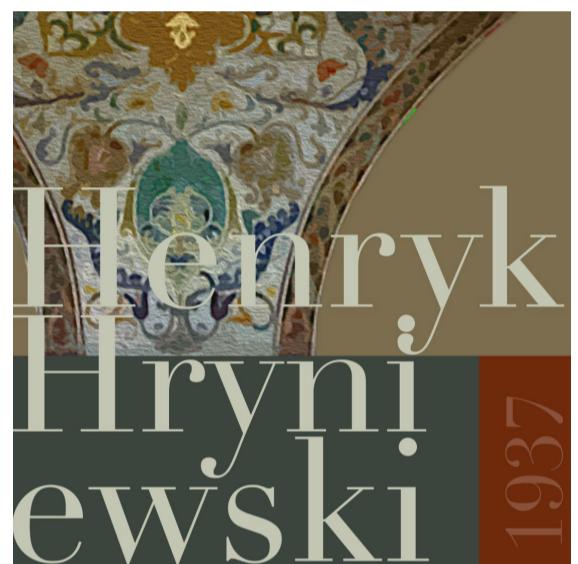

## ZEGAVLENA

Influence ("გეგავლენა" in Georgian) is a monthly online publication that introduces the dynamics of contemporary Georgian art and current cultural processes to a wide range of readers. Our concept is based on getting Georgian contemporary artists known, finding connections from art history, and discovering interesting and unknown visual materials through the thematic sections. Readers of the online edition will get inspiration for interior design through interviews, review blogs, high-quality exclusive design, and also get acquainted with the Georgian art reality from different angles. "Influence" - the name of the publication, is the name of Tea Nili's concept book. Tea Nili's concept through wordplay tells us about the influences, intangible values, and inspirations that are born around us.

Tea Nili, Editor-in-Chief of this online publication and the author of the idea, based on visual research with ReachArt Visual Group and I-Studio, creates the concept of developing a personal aesthetic vision by discovering art. Art is an influence, an identifier, an integral part of our personality, character, and taste.
